An Alumni letter from Albert Nguyen

Greetings fellow students,

As some of you might know, my name is Albert Nguyen and I'm a former student at SIS who attended the GAC program. I'm currently studying in the United States of America and I have achieved some of the highest honors that my University has ever seen. I'm only 19 years old and I'm already in my third year of college, with constant A's and perfect scores and consistently being listed on the President's and Dean's list. In my spare time, I enjoy boosting my classmates grades to A's too and I've been invited to be a teacher assistant multiple times. You might be wondering how I was able to get there, well that's because of all the help and support that I have received from GAC. GAC allows a person to truly thrive when preparing to study in abroad. First of all, GAC credits allows a person to skip their first year of college so a person could move on to being a

sophomore in college. The English skills that I learnt in GAC truly enhanced how I communicated with my fellow classmates and gave some of the most influential presentations at my university. I always was able ace group projects because of the skills that I learned from GAC as I've done them to many times. Writing professional essays and designing outlines for group projects became much more effortless since I had an edge over many of my American counterparts of learning ICT in GAC too.

GAC is truly a community where a person can access a large amount of skills, it's a place that allows a person to critically think and think outside a box and last but not least, teachers are going to help you with every single step along your GAC year due to the coursework involved with it rather than relying on one big test.

Best,

Alex
